

Year 7 - Home Learning Menu – February – March 2021

For Year 7 remote learning takes place as a mix of Live Lessons and online assignments via **Microsoft Teams**, all delivered by your normal Science teachers. Everyday when you are timetabled to have Science, you should log in to Microsoft teams at 8:35am, check your calendar for live lessons, if there are none scheduled then check the 'Assignments section' of your Science class on Microsoft Teams.

Remember all assignments must be submitted so teachers can provide you with feedback.

Class	Teaching Staff – Topics Covered		
7R1	Ms Rigby: <ul style="list-style-type: none"> Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility. 	Ms Marwick: <ul style="list-style-type: none"> Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	
7R2	Ms Dyer: <ul style="list-style-type: none"> Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility. 	Ms Jain: <ul style="list-style-type: none"> Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	
7R3	Ms Marwick: <ul style="list-style-type: none"> Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	Ms Rigby: <ul style="list-style-type: none"> Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility. 	
7R4	Ms Schneider: <ul style="list-style-type: none"> Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	Ms Davies: <ul style="list-style-type: none"> Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual 	

		reproduction, and how modern discoveries can aid human infertility.	
7R5	Mr Coulson: <ul style="list-style-type: none"> • Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility. 	Ms Kirk: <ul style="list-style-type: none"> • Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	Dr Hill: <ul style="list-style-type: none"> • Physics: P7a Forces and Motion: The interaction of forces and how they affect your movement.
7B1	Ms Jain: <ul style="list-style-type: none"> • Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. • Physics: P7b Space: Nuclear fusion in the Sun, the Solar System, galaxies and beyond. 	Ms Schneider: <ul style="list-style-type: none"> • Physics: P7a Forces and Motion: The interaction of forces and how they affect your movement. 	
7B2	Ms Kirk: <ul style="list-style-type: none"> • Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	Ms Davies: <ul style="list-style-type: none"> • Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility. 	
7B3	Ms Marwick: <ul style="list-style-type: none"> • Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	Ms Petterson: <ul style="list-style-type: none"> • Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility. 	
7B4	Ms Petterson: <ul style="list-style-type: none"> • Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility. 	Ms Kirk: <ul style="list-style-type: none"> • Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis. 	

7B5 (7P)	Ms Petterson: <ul style="list-style-type: none">• Biology: B7b Reproduction: The reproductive systems of animals and plants, sexual and sexual reproduction, and how modern discoveries can aid human infertility.	Ms Jain: <ul style="list-style-type: none">• Chemistry: C7c Acids and alkalis: Exploring the reactions and hazards of acids and alkalis.
