

DRAMA

Progression to Year 10
BTEC Level 2 Tech
Award in Performing
Arts

Text: The Tempest

In this topic, students will delve into the world of drama by exploring key themes from Shakespeare's "The Tempest" to enhance their understanding of stage craft. Through a series of structured lessons, they will engage in script reading, performance, peer feedback, and reflection.

Devising: Stimuli

In this topic, students will explore the process of devising original dramatic scenes. Students will develop their skills in improvisation, scriptwriting, character creation, and performance with emphasis on the different kinds of stimuli used to inspire original performance work.

Advanced Improvisation

Students will develop their advanced improvisation skills and ability to perform confidently and accurately, demonstrating a deep understanding of theatrical staging, character intentions, and audience awareness.

Year
8

Text: Frankenstein

In this topic, students will explore key themes from Frankenstein to enhance their understanding of stage craft. Through a series of structured lessons, they will engage in script reading, performance, peer feedback, and reflection. The aim is to develop their skills in script analysis, character portrayal, and stage presence

Devising: British Values

Students will explore devising drama with a focus on British values. Through collaborative activities, they will create and develop their own performance pieces. Emphasis will be placed on using various drama techniques to communicate ideas effectively.

Improvisation

Through a series of workshops, students will develop their improvisational skills in drama. They will participate in drama games and activities designed to build confidence and encourage spontaneous performance.
