

GEOGRAPHY KS3 LEARNING JOURNEY

25. Distinctive coasts in the UK

Comparing different processes, landforms and management strategies throughout the UK

23. Global effects of climate change

Effects on people and the environment
Global solutions

21. Changing in small ecosystems

What is an ecosystem?
Changes in ecosystems, fieldwork

Ready for GCSE

24. Cold environments

Antarctica
Climate
Food webs
Tourism

22. Icelandic volcanoes

Causes
Effects
Monitoring

20. Water in the SE

Decision making exercise on building a reservoir

19. Liverpool, UK city

Distribution of UK cities
Urban growth
Sustainable urban living

17. BRIC countries

Focus on Russia and India
Strengths and weakness for future economic growth

18. Fieldwork

Accessibility
fieldwork

Year 9

16. Energy

Decision making unit

15. The Lake District

Glacial erosion and landforms
Glacial deposition and landforms
Fieldwork

14. Asian tropical rainforests

Location
Main physical features
People who live there
Deforestation

13. Population

Distribution in Russia
Refugees from the Yemen
Variation in birth rates

12. China and Malawi

Locational knowledge
Reasons why China is rich and Malawi is poor
Strategies to help Malawi

7. Nigeria

Employment structure
Use of oil
Quality of life
Aid

8. Climate emergency

Causes of climate change
UK effects
Possible responses

9. Our home region

Locational knowledge
North south divide
Transport improvements

10. The Middle East

Locational knowledge
Sustainable city
Water crisis

11. Indonesian earthquake

Causes
Effects
Immediate and long-term responses

Year 8

7. Nigeria

Year 7

6. Somerset floods

Causes, effects and responses

4. Yorkshire Dales

Rock cycle and weathering
Limestone landforms
Quarrying
Glaciation – glacial budget and dry valleys

2. Skills

Map skills
Fieldwork

5. River Mersey

Drainage basin
River processes
Water quality

3. Different climates

UK rainfall
Fieldwork microclimates
Hot deserts

1. Lagos

Urbanisation
Squatter settlement
Atlas work

GEOGRAPHY GCSE LEARNING JOURNEY

Ready for
A Level

9. Pre-release material
Released by AQA mid March – on any issue studied at GCSE

8. Resources
Overview of resources for well-being (water, food, energy)
Detailed study of energy; security, sustainability

7. Fieldwork
Human fieldwork

6. Changing Economic World
Measuring development
Development gap; causes and strategies
Nigeria; importance; industrial structure, relationship with others, quality of life, TNCs and the post-industrial economy of the UK

4. Urban issues
City in a LIC/NEE – Lagos or Rio (Importance of city; opportunities and challenges; urban planning)
UK city – Liverpool or Bristol (Importance of city; opportunities and challenges; regeneration)
Sustainable urban living – BedZED

Year
11

5. Fieldwork
Physical fieldwork

3. Physical Landscapes of the UK
Glaciation; processes and landforms
Coasts; processes and landforms
Map skills

2. The Living World
Local ecosystems
Tropical rainforests; characteristics, causes, effects and management of deforestation
Cold environments; opportunities and challenges

Year
10

1. The Challenge of Natural Hazards
Climate change; evidence, cause, effects and management
Extreme weather, effects and management
Tropical storms; causes, effects and management
Comparing earthquakes in areas of different wealth
