

Lower school students who achieved a certificate in the recent UKMT Maths Challenge (full story below)

Industrial Action Update

A letter is being sent to parents/carers this afternoon.

Principal's Award

On Thursday, another group of fantastic students joined me for a celebration breakfast as part of the Principal's Award.

These students have been nominated for consistently going above and beyond in all aspects of school life, and we are incredibly proud of their achievements.

Cowley students excel in the UKMT Maths Challenge

Twenty five 'number crunchers' from Year 7 and Year 8 at Cowley have won certificates in a UK junior maths challenge.

Lower school students recently participated in the UK Maths Trust Junior Mathematical Challenge and the results are brilliant for the school with 25 students taking away certificates.

In April, students from Cowley joined schools from up and down the country to compete in a nationwide maths challenge. The challenge is organised by UK Mathematics Trust and requires students to use mathematical reasoning and techniques to think-outside-the-box and solve sophisticated mathematical problems.

One student achieved the coveted Gold certificate, seven achieved Silver and 17 bagged bronze.

Year 7 student, Laura, achieved an impressive score and secured a Gold certificate. Laura has been invited to take part in the Junior Kangaroo Maths Competition which takes place on 9th June.

A massive thank you goes out to our Maths Department, for all the training and encouragement given to our competitors. We also give thanks to the parents and carers who continue to support their daughter/son in their academic and extra-curricular endeavours.

Lights, Camera, Action!

Three Creative Digital Media – Film and Video students from Cowley Sixth Form attended the Skills Summit yesterday as part of The Creative Cities Convention (CCC) in Liverpool.

During the full-day event, students took part in a range of masterclasses and had the opportunity to hear from industry speakers representing Prime, Lime Pictures, BBC Academy and Liverpool Film Office. The students thoroughly enjoyed the summit, which provided valuable links to their current studies and future career aspirations.

Year 13 Student Achieves Army Selection Success and Sets New Fitness Record

Huge congratulations to one of our Year 13 students who, after years of determination and a clear goal, is now set to join the Army following his time at Cowley Sixth Form.

He also set a candidate record during the physical assessment, completing the 2km run in an incredible 7 minutes 13 seconds!

We are incredibly proud to have supported him on his journey and wish him every success for the future.

Y9 Rugby team play in Cardiff

These Year 9 students proudly represented Cowley in the National Rugby League quarter-final at Glantaf in Cardiff last Friday. Cowley made an excellent start to the game and by half-time, the score was 10–4.

The second half began at pace, with Glantaf scoring immediately from the kick-off and following up with another quick try in their next set. Cowley responded strongly and showed real composure under pressure.

Although Glantaf ultimately held on to win, the Cowley team demonstrated outstanding character throughout and represented the school with real credit.

Cricket news

On Wednesday, our youngest cricketers took to the field for their first game of the season, with many representing Cowley at cricket for the very first time.

In a closely contested match, the team narrowly came up short after Rainford successfully chased down Cowley's total of 82 in 18 overs.

Overall, the lads were a credit to themselves and the school, and will no doubt take valuable lessons from the experience as they look ahead to their next fixture.
