COWLEY
INTERNATIONAL COLLEGE

ENRICHMENT ACTIVITIES

ACADEMIC & WELLBEING

September - December

Introduction

Our enrichment history
Cowley International College has a proud history of providing students with the most broad, exciting and aspirational enrichment programming. Including sporting clubs, whole school theatrical productions, music concerts, academic further investigation, European and international touring, as well a wide range of weekly subject specific offerings.

What is enrichment?
Although formal lessons end at 2:45pm, the College day does not. Students can choose from a fantastic range of academic and non-academic after College enrichment activities and clubs. After College activities and clubs may vary in length depending on the activity. Enrichment activities change throughout year depending on seasons, exams and staff availability. These are updated on our website. All after school clubs and activities are free of change. Charges apply for some trips and these are heavily subsidised by the college.

Enrichment at Cowley is overseen by Miss Eiffe-Harvey

Why attend enrichment?
There are three main reasons to attend enrichment activities. Firstly, the catch up and revision sessions are a fantastic tool to help accelerate your academic achievement. Whether you missed a lesson, want to improve your depth of knowledge or need help with coursework, then these catch up/revision sessions will provide you with the support needed.

Secondly, enrichment activities allow you to gain experience in areas not typically part of your everyday curriculum. By opting into these new experiences, you can enhance personal attributes that are extremely desirable to future employers and further education providers.

And lastly, enrichment offers a wonderful opportunity to learn beyond the national curriculum. The activities provide wider learning experiences and the chance to make new friends in different year groups.

Who can attend?
Everybody! Whichever year group you are in, there are enrichment sessions for you to choose from. Y11 students are required to attend academic enrichment. These additional sessions have proven to support students to achieve academic success.

Contact
If there is an enrichment activity that you would like to take part in that isn't currently offered, mention your ideas to the school by emailing: enquiries@cowleysthelens.org.uk

Monday

Year	Staff	Activity	Time	Room
